

Section V Boys' Basketball has been honored to have had so many people, basketball officials and fans, offer their time and talents to the enrichment of the Section V Boys' Basketball website.

Several years ago, we started posting the Section V Playoff Brackets online for coaches, players and fans to enjoy throughout the tournament. At that time a young man from Section IV contacted Phil Abel and asked if we would be interested in having every sectional playoff bracket in the State updated and posted daily throughout the sectional playoffs. His name was Bret Bystricky. This website was his idea initially.

Bret did the work for 3 years, and when he accepted a teaching position in North Carolina, we began to seek out additional help in the different sections. Over the past couple of years, volunteers in other sections offered their help in doing a bracket and this website was born.

Rich Aylward stepped up in 2010 and indicated a willingness to pursue the Federation Brackets and any of the NY State Regional Brackets that we still needed help with. His work and his devotion to this project gave rise to the website that he now writes and maintains. Rich is solely responsible for archiving all the state playoff brackets from 1920 to the present. This has been a Herculean undertaking and is an on-going project for which we are deeply grateful.

The following gentlemen are our current "Bracketeers" for the New York State Public High School Boys' Basketball Tournament Brackets. Special thanks go out to all of them for their help on this project in years past and, hopefully, in years to come.
